

CAIRO TECHNICAL CENTER
SUPPLYING . SERVICES . CONTRACTOR

WHO WE ARE

CTC (Cairo Technical Center Company) is the extension of ElFania for Trading and Contracting Company which was founded in the early 1982 with the highest professionalism, technological capabilities, and esteemed capacity for innovation to manufacture products that lasts a lifetime.

Since its foundation 2017, **CTC** has successfully designed, manufactured and installed all clients' requirements from custom built machinery's, integrated production lines, stainless steel specialty tanks, pressurized vessels and containers in addition to boilers installation, repairs, steam lines Modification and expansion. Plus, a respectful list of turn key projects handed over locally and/or internationally.

”

Pursuing the traditional policies of business collaborations with reputable international industries over the years enabled **CTC** a better market penetration in areas of strategic interests.

Partnerships with renowned local and/or international industries for knowhow transfer, supplying the detailed drawings and designs of **CTC** masterpieces (products and equipment's). The key to our success is namely owned to our qualified and highly trained employees completed with their production expertise serviced and maintained with an efficient teamwork.

“

Therefore, you are kindly requested to go through our attached company profile, in the eventual hope to establish and maintain a business profile with Egypt.

SCOPE OF WORK

BOILERS

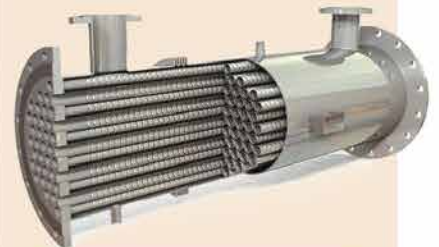

PIPELINES

PRESSURE VESSELS

TANKS

HEAT EXCHANGERS

BOILERS

”

A **boiler** is an enclosed vessel that provides a means for combustion and transfers heat to water until it becomes hot water or steam. The hot water or steam under pressure is then usable for transferring the heat to any process.

“

| SUPPLY

CTC is able to provide the client with the boiler appropriate to his needs in cooperation with **CTC** Engineering team.

| INSTALLATION

CTC has a dedicated team of technicians and engineers in boiler installation.

| MAINTENANCE

CTC has a dedicated team to find the problem and quickly solve it.

| MODIFICATION

CTC has a dedicated team to modify any type of boilers.

OUR SERVICES

PROJECT WORKS DIVISION

- COMMERCIAL AND INDUSTRIAL MECHANICAL FIT OUT.
- BOILERS (SUPPLY/INSTALL/MODERNIZATION/MODIFICATION).
- CONTROL ROOMS.
- GAS TRAINS.
- REGULATORS.
- IGNITION SYSTEM.
- FLOW METERS.
- STEAM GENERATORS.
- VALVES.
- SPARE PARTS.
- CHILLERS.
- PIPING.
- FIRE FIGHTING.

OUR PRODUCTS

The company is one of the only companies in manufacturing some mechanical needs that are subject to all the agreed standards and under all known tests.

- BOILERS.
- TANKS.
- HEAT EXCHANGERS.
- COOLERS.
- DEAERATORS.
- MIXERS.
- COOLING TOWERS.
- PIPE NETWORKS.
- STEEL STRUCTURES.

MANUFACTURING

| BOILERS

CTC is one of the prominent manufacturers, exporter and supplier of Steam Boilers, Hot Steam Generators, Thermal Fluid Heaters, Hot Air Generators, etc. Our products are developed and designed as per the international quality and norms. They are used in various industrial applications in the sectors like Food Industry, Laundries, Chemical Process, Textile Industries, Oil Refineries, etc.

| TANKS

CTC is a leader in the Tanks industry of all its types since our inception. Offering products such as Fixed-roof tanks.

External floating roof tanks, Internal floating roof tanks, domed external floating roof tanks, Horizontal tanks and Pressure tanks, as well as a diverse array of other products we have built ourselves a reputation based on excellent customer service and exceptional product value. Our engineers and technicians possess the capability and the know-how, which you can count on, to design for you, a custom product that is perfectly tailored to fit your unique, individual needs

| HEAT EXCHANGER

CTC is a leader in the heat exchanger industry since our inception.

Offering products such as intercoolers and after coolers, fan cooled units, motor and generator coolers, as well as a diverse array of other products we have built ourselves a reputation based on excellent customer service and exceptional product value. Our engineers and technicians possess the capability and the know-how, which you can count on, to design for you, a custom product that is perfectly tailored to fit your unique, individual needs.

| PRESSURE VESSELS

CTC is one of the leading fabricators of pressure vessels, storage tanks, and reactors in Egypt. Our focus is on quality, service, on time deliveries, and customer loyalty and we know those are key to our success in the industry.

We are leaders in ASME pressure vessel construction and want to provide individualized, high quality service to each and every customer we work with. We work with various materials to provide the best solutions for each customer.

| STEEL STRUCTURE

CTC designs, fabricates and provide steel structure building more than 10 years. You can customize your building together with our technical department. You can assemble your building on site alongside our installation team. We will provide you one-stop solution of steel structure building and complete services. You're welcome to visit our factory.

QUALITY CONTROL & SAFETY

I QUALITY CONTROL SYSTEM

“ CTC operates under a formal, Quality Control System. It is the company’s policy to comply in every respect to all rules and regulations stipulated in the API Standards, ASME Boiler and Pressure Vessel Code.

CTC defines Quality as conformance with customer specifications; required codes and accepted industry standards.

Management fully supports the Quality Control System and the Quality Control Manager, who reports directly to the company President, has the authority and responsibility to implement this program. ”

I SAFETY POLICY

“ The Safety Policy of CTC is to comply with the standards of the Occupational Safety and Health Act (OSHA) and to endeavor to have a safe and injury/illness free workplace.

At CTC, all employees share in the responsibility to promote and implement safe work practice to ensure a safe work environment for all employees. Compliance with the rules, regulations, and procedures contained in the Safety Policy are mandatory for all company employees and visitors. The company takes every reasonable precaution to ensure employees have a safe working environment. Periodic, independent audits are conducted to ensure compliance with the Safety Policy. ”
